TAKLA EMERGENCY FUNDING – UPDATE

Hadieh,

Our **final** round of funding from the 11-13 of May 2020 has successfully gone out to support Takla Nation's response for emergency funding.

We are now in a state of low risk. While we are all practising social distancing, restricted travel to hot spots, and handwashing with liquid soap and warm water, it is important to remember to keep up these activities and be safe and healthy.

Thank you to the Admin and Finance staff in Takla and Prince George for the countless hours of work to make this all happen. Thank you also to the members who have updated their contact information!

This has been an amazing gift from the Chief and Council for all of us. Mesi Cho to our leadership for taking the steps to make this happen.

Be Safe and be Well,

Scott Hickling
GM Operations
