

Covid-19 has now become part of our community. We need to take greater measures to control its spread and raise awareness to new levels. Simply put, we need to take it seriously or we will be in trouble. The EOC and Chief and Council have spent the last 10 months talking about education, prevention and protection, and yet there are those who choose not to listen to the advice. They think they are immune to it and putting others at risk - Elders- Children - The Community

LETS WORK TOGETHER TO FLATTEN THE CURVE!!!

HOW WE WILL DO IT:

- No unnecessary travel - avoid Ft St James (60 cases, growing)
- Assume everyone has Covid
- If you have ANY flu like symptoms - Call the hotline and get a test
- We have over 25 direct links to individuals who have tested positive.
- Covid Bylaw is in place, to ensure community safety and community health
- RESPECT SOCIAL DISTANCE, WEAR A MASK, SANITIZE YOUR HANDS
- NO HOUSE TO HOUSE VISITS - STAY IN YOUR HOME BUBBLE
- RESPECT THE CHECKPOINT
